

# ARIEL

A Simple Touch of Luxury

## Escape with Luxury

With the passing of each day we seek to find that perfect environment that will allow us to relax and enjoy the gift of water. For a quarter of a century, Ariel seeks to bring to you the enjoyment that water truly is. Allow yourself to experience it all through the health benefits of steam and the luxury of our designs.

## Indulge in Steam Showers

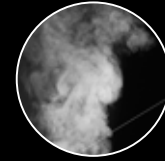

Within the Ariel Steam Shower Systems, the luxuries of wet steam, rainfall and handheld showers, soothing body sprays, chromatherapy lighting, and more await you. The Ariel Whirlpool Bath Tub lines also offer complete relaxation, where you will find that water truly is a gift to be enjoyed.

### STEAM

In addition to its relaxing and soothing properties, steam therapy can help the body cleanse itself of toxins and waste. It can be an effective treatment for respiratory and sinus conditions, circulation, flexibility, and the immune system. The deep cleansing power of steam also cleans pores leaving you with younger looking, more radiant skin.

### RAINFALL SHOWER

These showers deliver the sensation of soothing rain. Rainfall shower heads transform every shower into a natural rainfall experience, where one is left feeling refreshed and renewed.

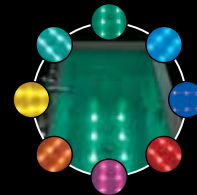

### BODY JETS

Strategically positioned spray nozzles pinpoint and tenderize channels and subsidiary channels along the body. Therapeutic water massage from up to 20 jets can help increase your body circulation, invigorate your blood cells, prevent chronic disease, and simply rejuvenate your senses.

### CHROMATHERAPY

Lighting plays an essential role in creating atmosphere and mood. Chromatherapy provides control over these elements of your bath environment. Cool colors, such as green and blue evoke a sense of calm, while the warm colors of red and orange revitalize and rejuvenate.
